

Equipping For Life and Ministry Institute & Counseling Center
21 N. Main St.
Coopersburg, PA 18034
610-282-8066

You already know that ELMICC is a counseling center devoted to helping people find God's solutions to life's problems. However, you may not be aware of the fact that ELMICC is also involved in training and equipping others to help people find God's solutions to life's problems. To do this, the staff of ELMICC teaches biblical counseling in the Lehigh Valley and elsewhere. Since we believe in the discipleship method of training, the staff of ELMICC conducts classes where biblical counseling principles are taught, where advanced students do counseling under supervision and where students actually watch (usually on video or DVD) an experienced counselor do counseling. People learn by listening, by observing and by doing - so we want to provide a full orbred program for developing skilled biblical counselors who can really help people find and implement God's solutions to life's problems.

Here's where you come in. To provide a maximum learning experience for the development of knowledge, wisdom and skill we need videotapes of actual counseling being done. So we are asking you if you would be willing for us to video tape your counseling session so that students could not only hear about how to do biblical counseling, but also see it being done. These tapes will be used only for instructional purposes for counselors in training. Since the main purpose of these tapes is to train people to do counseling, the focus will be on the counselor, not on you.

We, of course, cannot and will not tape any of your sessions without your permission. You, however, would be doing the cause of Christ a great service by allowing your sessions to be taped.

If you want to help us in this ministry of equipping people to more effectively help people to find God's solutions to life's problems, please sign your name and put your address and the date on which you signed this consent form provided for that purpose and put today's date on the lines provided for that purpose.

I give ELMICC the right to video tape my counseling sessions and to use them for instructional purposes:
